

## PBX, long form antibody (mAb)

Catalog Nos: 61151, 61152

RRID: AB\_2793528 Clone: 359.19 Isotype: IgG1, k Application(s): WB

Reactivity: Human

Quantities: 100 µg, 10 µg

Purification: Protein G Chromatography

Host: Mouse

Concentration: 1 µg/µl Molecular Weight: 51 kDa

**Background: PBX** proteins are a family of TALE-class transcription factors that associate with a subset of Hox proteins, enhancing their DNA binding affinities and specificities. **PBX** proteins also heterodimerize with the Meis/Prep subfamily of to form trimeric complexes with Hox proteins at specific DNA sites.

**Immunogen:** This PBX antibody was raised against a recombinant protein corresponding to amino acids 319 - 430 of human PBX1A.

**Buffer:** Purified IgG in PBS with 30% glycerol and 0.035% sodium azide. Sodium azide is highly toxic.

## **Application Notes:**

**Storage and Guarantee:** Some products may be shipped at room temperature. This will not affect their stability or performance. Avoid repeated freeze/thaw cycles by aliquoting items into single-use fractions for storage at -20°C for up to 2 years. Keep all reagents on ice when not in storage. This product is guaranteed for 12 months from date of receipt.

This product is for research use only and is not for use in diagnostic procedures.
